FUN SHOW UNDERWAY IN FLORIDA
MINT REMOVES ORDER LIMITS ON SILVER PROOF SETS

The Market in Depth

The first **major** coin show of the year is currently underway in Orlando, FL. The Florida United Numismatists show and public auction, which began January 5, should provide us with some insight to the 2000 rare coin market. This show usually receives high expectations from dealers, and is the first clue as to the health of the market entering the active winter season.

The U.S. Mint has **removed** its order limits on the 1999-S Silver Proof Sets. As has been observed in 1999, once again, this move has frustrated some dealers. The Mint said that the Silver Proof Sets, along with regular 9-coin and 5-coin Proof Sets, will be available until they are sold out. Meanwhile, some dealers are still willing to pay slightly more than the Mint's selling price, provided they get immediate delivery.

It looks like the year 2000 is beginning where 1999 ended. Dealers are buying **better** dates of all denominations for their customers and inventories. They know that today's more sophisticated, knowledgeable and financially sound collectors and collector/investors are willing and able to buy rare coins at or above current levels. Scarce key dates are needed as beginning collectors work on building complete sets in all grades. The more well-heeled collector/investors are looking for complete sets in quality condition. Availability is quickly becoming the obstacle in satisfying this demand. We see a great deal of interest in 20th century Circulated and Brilliant Uncirculated Sets. These are the coins with the attractive designs that today's buyers remember when they were younger. Now that they are financially secure, benefiting from a record setting stock market in 1999, they are willing to buy the things they enjoy and were unable to afford back then. Times have changed, and now they can afford to indulge their hobby wish lists.

Here are some select items of note this week. Common date Morgan Dollars in MS67 are up $20 to $470 Bid. Two scarce New Orleans Mint Morgan keys are doing well; check out the 1893-O and 1896-O in MS64. The first year key, 1921 Peace Dollar is higher is MS65. Also, key date Mercury Dimes, 1916-D and 1942/1-D increased in MS64 Full Band. Finally, the 1936 P,D,S Cincinnati Commem set has a higher Bid in MS66.

This Week's Market

CENTS THRU HALVES: On the plus side, the recent popularity of Quarters is forging into the new year. BU Quarter Rolls are up once again for most dates. The Proof Roll market is a decidedly different story, as several dates and denominations are down.

MERCURY DIMES: Support and increases, especially in MS64FB and MS65FB, characterize the market for Mercs this first week of 2000. Semi-key and key dates are particularly strong. The 1942/41 example is up nearly 11% in MS64FB.

WALKING LIBERTY HALVES: A rather quiet condition exists at the moment. Still, support for "short set" dates continues, and some decreases are present as well. Otherwise, very little movement is to be found in the Walker market.

DOLLARS: Morgans are predominantly stable. Some volatility is taking place in XF, though, where many common dates have gone down slightly. Peace Dollars are also stable, with slight discounting for VG common dates. BU Eisenhower Dollars are on **fire**. The overall excitement for Dollars is certainly showing here, as virtually all dates have gone up or have strong support at current Bid.

PROOF SETS AND MINT SETS: Proof Sets have much support and some increases as well. Mint Sets have calmed since our last report, and dealers are showing a lack of willingness to pay over current Bid for them.

COMMEMORATIVES: Activity is present throughout the Silver Commem market. Guess who's still going up — that's right! Isabella has increased again in XF MS63. This activity provides yet another example of the Quarter craze continuing in the new year. Gold Commems have leveled off, with strong support in higher grades.

TYPE: MS Type coins are quiet. Support for Two Cent Pieces in Red and Brown is strong, as has been the case lately. The recent volatility in the Proof Type market has slowed, but the pattern of strong, overall support continues. Matte Lincoln Cents in Brown and Three Cent Nickels are particularly strong.

GOLD: Gold seems to be stabilizing a bit, with no major declines to report. In fact, Type II $1 Gold Pieces are up in MS63, and High Relief Saints in MS64 have climbed as well.

GREYSHEET GRADING STANDARDS

*Numbers are used as shorthand for adjectival grading. The following descriptions are used by the CDN to designate the exact quality of Brilliant Uncirculated coins.

Grade descriptions do not necessarily apply to modern government issues because they are produced carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre; may be dull, toned or spotted. May be the lowest possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be as dark as 5; free of problems); will have minor bagmarks and may show weakness of strike. Above average value.

MS64 - Distinct BU: Far and away better than MS63, yet a rung below MS65. Free of distracting, minor marks on main devices. Full strike with eye appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full luster. NO mint bruises or heavy abrasions. Exceptional toning permissible. A very tiny percentage of available BU coins make the grade. Most have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in every respect. Extremely few encountered specimens are based upon the needle in a haystack rule. They range from low- to above-average according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Matte issue of same date with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 4B which contains Modern Commemoratives and Modern Eagle gold and silver.

FUN SHOW FINISHES STRONG
SEMI-KEY SAINTS SOUGHT

The Market in Depth

The January 5-9 Florida United Numismatist show overcame a very sluggish start to finish with a flourish of activity. According to one dealer, things were "booming by Saturday." Dealers in attendance were mostly pleased with their results. Demand for semi-scarce $20 Saint-Gaudens was observed. Some dealers reported that the availability of better than average dated Saints is a problem. Dates such as 1914-D, 1914-S and 1915-S are becoming increasingly difficult to locate in MS65 condition, they concluded. Consequently, some dealers believe that the current price levels for these Saints are excellent values.

Strong demand was omnipresent for Bust material of all denominations on the bourse. Early Large Cents in AU and Uncirculated were on buyers' lists. Early Bust Half Dollars were also selling. Common dates 1806 and 1807 were sought-after. Select Capped Bust Halves were selling as well. Unfortunately, there was slim pickings for many of these Half Dollars. Early Bust Dollars were in demand, especially in About Uncirculated and better. Again, dealers were having a difficult time finding nice coins to buy. Coins that possessed exceptional eye appeal and/or were premium quality for the grade sold quickly. Weakness is still evident for Proof Gold. Dealers agree the glut that emerged on the market in 1999 via public auctions continues to depress prices. However, early and select dated Gold were doing well.

Did the FUN show help to define the 2000 market ahead? In one sense, dealers believe the market is becoming more **retail** oriented. Dealers are increasingly looking to buy coins to sell directly to the public. This is a change from the majority dealer-to-dealer transactions that usually tend to dominate the bourse activity. The reason for this change may be attributed directly to the growth of the Internet. Dealers have been reporting some success with their online sales. However, results do vary; those websites that are kept fresh seem to do the best.

BOWERS & MERENA DATE	DENOMINATION	GRADE	PRICE REALIZED
1793	Chain Cent, AMERI S-1	AU55	$ 92,000
1859-S	Liberty Seated Dollar	MS63	$ 21,850
1880	$4 Coiled Hair Stella	PR64	$253,000
1907	$10 Indian, Rolled Edge, Periods	MS66	$ 97,750

The Rarities Sale by Bowers & Merena realized more than $2.47 million. The January 4, Orlando, FL sale featured 500 lots. This was the first major rare coin auction in 2000. We have listed a few of the many highlights from that auction.

The Heritage FUN Signature Sale conducted on January 5-7 realized more than $5.44 million. It was held in conjunction with the Florida United Numismatist show in Orlando.

This Week's Market

MERCURY DIMES: Mercury Dimes are stable this week. The slight volatility reported for the first week of 2000 has calmed. Still, a good amount of support for current Bid exists for a wide variety of dates and grades.

WALKING LIBERTY HALVES: Slight weakness in MS65 for a few common date specimens is found on the Walker chart. Also, dealers are demonstrating their willingness to pay current prices for the "short set" customers. The remainder of the Walking Liberty market is quiet.

DOLLARS: Numerous common date Morgans are falling slightly in the MS60 grade category. The Peace Dollar market continues its stability, while also maintaining solid support for key and semi-key dates in a majority of grades.

PROOF SETS AND MINT SETS: No movement is seen on the Proof Set chart, but plenty of current Bid support is present. Mint Sets have a similar situation, with no real action to report at this time.

COMMEMORATIVES: Silver Commems show little activity in high grades. As with Silver Commemoratives, Gold Commems are also quiet. Modern Silver Commem Dollars have more action to report. The Rowing, High Jump and Community Service specimens are all up in BU. A variety of other issues have gone up in Proof. By contrast, Five Dollar and Ten Dollar Gold Commems are down in both BU and Proof.

TYPE: Uncirculated Type coins are more active this week. While Draped Bust Quarters, Small Eagle are up in MS63-MS65, the Capped Bust Quarters are down in MS63-MS64. A few other Type Quarters are down in higher grades as well. The strong Proof Type market is rather stable this week, with a few changes to report; Three Cent Silvers Type II are up in PR64, and Liberty Seated Quarters are down a bit, also in PR64.

GOLD: Gold Type is mostly quiet this week, despite the $7 drop in Gold Spot since last week. Modern American Eagles are showing gains since last reported

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. Bids are prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes considerations of condition, rarity, value. Bids for sight unseen may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not charge Bid due to the [illegible] of the high Bids and lowest Asks which are higher or bids which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. If you are purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre, NO major distractions in field or on major devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Bullion.

Here's what some of **Spectrum's** satisfied clients have to say:

This is just a note to say "thank you" for the prompt attention, courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale ($700) or the one in 1995 for over $100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 3 January 21, 2000 *. . .a Friday morning report on the Coin Market*

QUALITY COINS IN DEMAND
STACK'S SALE REALIZES $3 MILLION

The Market in Depth

The market for rare dates and coins that possess **exceptional** eye appeal continues to be very strong. Dealers are eager to buy better date coins that have few problems and brilliant, original luster. Dealers tell us they have many customers who are very knowledgeable about a coin's quality. These customers are willing to pay strong money if the coin measures up to their tough standards. Consequently, dealers are also willing to pay more money for these kinds of rare coins. The Morgan Dollar market is a perfect example where quality sells for very strong prices. This week, you will notice many plus signs for Dollars not easily found. For the most part, these are high-grade examples of scarce dates from the extremely popular Morgan series. Dealers are happy to pay strong money for any of these dates that are average or above average quality for the grade. Some dates in strong demand in MS65 and MS66 condition include 1878-S, 1881-O, 1887-S, 1890-S, 1895-S, 1898-S and 1902-S. Buyers are looking for nice, brilliant white examples, but they will also pay strong money for original, attractively toned specimens. Carson City Dollars continue to impress dealers with their strong collector/investor demand. Several high-quality "CC" Dollars changed hands at higher levels this week.

Key and better date Mercury Dimes are increasing. Collectors are working on complete sets while dealers try to find select coins in quality condition. For example, 1923-S is badly needed in MS64FB or MS65FB. Mostly, buyers are looking for fresh, brilliant white specimens for their collections. Increases are also noted among the Lewis & Clark Expo $1 Gold issues in MS64 and better. Select Silver Commems are advancing in MS64 and better condition as well.

Stack's Americana auction, featuring the George C. Perkins, Esq. Collection of Connecticut Coppers, Federal Currency Proofs and Essays, brought more than $3 million in New York. The sale was held January 12-13. A few of the many U.S. coin highlights are listed.

STACK'S DATE	DENOMINATION	GRADE	PRICE REALIZED
1793	Chain AMERICA Cent, Leaning R, S-3	XF45	$ 25,300
1796	Draped Bust Half Dollar, 15 Stars, O-101	MS62	$ 75,900
1796	$10 Capped Bust	AU55	$ 48,300
1797	$10 Capped Bust, Small Eagle, Amon Carter	MS60	$135,125
1891	$20 Liberty	AU50	$ 10,062

This Week's Market

CENTS THRU HALVES: This healthy market is accented by continued demand and increases for Quarter Rolls. The excitement surrounding the Commemorative State Quarter program is most likely the prime cause for such strength. Even the '76 and '76-D Bicentennial Quarter Rolls have strong supporting Bids at $14 each.

MERCURY DIMES: As is often the case with Winged Liberty Dimes, the action is in MS64FB and MS65FB. The changes are mostly positive, with growing demand for several key dates. Also, support for current prices in other grades is present for many issues.

WALKING LIBERTY HALVES: A mixed bag for Walkers this week. With the rest of the market quiet, we have both increases and decreases in MS64 and MS65. This volatility is mostly affecting semi-key and key dates. Short Set dates have maintained their strong support.

DOLLARS: Key and semi-key Cartwheels are on a roll in higher grades, with Bids increasing nearly 8% for several issues. Peace Dollars are not as strong. Common dates have descended in VG, although support is evident in MS64 and MS65.

PROOF SETS AND MINT SETS: Demand has awakened the Proof Set market. While the scattered increases are rather small, they are indeed plentiful. Mint Sets are basically unchanged, though dealers are still willing to pay current prices this week.

COMMEMORATIVES: Demand has noticeably increased for Silver Commems in high grades. While support and higher Bids are dominant throughout this market, there is some weakness in MS66 for several examples. Dealers have increased their Bids for Gold Commems. Of particular note is the **upward movement** of both the 1904 and 1905 Lewis and Clark issues in MS64-MS66. As previously discussed, this recent interest is likely a result of the expected popularity of the 2000 Sacagawea Golden Dollar. The connection here is that Sacagawea was the young, Native American guide and interpreter for the two European explorers. She is credited with protecting and maintaining the health of all those on the Louis and Clark expedition.

TYPE: There is no movement to report for Mint State Type coins this week, but current Bid support is strong and exists throughout the market. Strong support also characterizes the Proof Type market. Three Cent Nickels are especially healthy across-the-board.

GOLD: The market is stable at the moment, with no significant changes on our Gold Type chart.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, most nearly all possible transactions and offers to buy and sell sight seen. The prices must be considered as "trade" or "asked" levels. Let the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bid and lowest legitimate Ask, which are generally those at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes consideration of certified coins. Bids for sight-seen coins may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the holding a Dealer to of the coin. Dealers may pay premiums for coins which are higher or bids which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium over wholesale when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices, while rolls of the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. 'Green, full steps' rolls, when separated, bring higher prices. Original bank 'full bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or 'put together' brings lower prices. Gem full steps Jefferson rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre; may be dull, toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc.; may exhibit some toning, but it should not be so great as to have any problems; will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few (if any) marks or mild, only minor marks on main devices. Full strike, with eye appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions or flaws on obverse or reverse. Attractive toning permissible. A very tiny percentage of available BU coins make this grade. Must have eye appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all respects. Almost all coins encountered/specimens are based upon the results of such coins. They range from very minor to undetectable according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State designation with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 2B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

STATE QUARTERS TARGET OF STRONG DEMAND
MINT SELLS OUT QUARTERS-ONLY PROOF SETS

The Market in Depth

The U.S. Mint's Circulating Commemorative State Quarter program has sure shot life into the Washington Quarter market. Quarters are hot! Dealers are looking to buy $1,000 Mint Sewn bags and Original Rolls of State Quarters at strong premiums. Delaware and Pennsylvania issues have seen Bids at over $3,900 per bag.

We even see dealers looking to buy *Circulated* State Quarter Rolls. Amazingly, dealers are willing to pay a $6 premium for them. Yes, your children can have a lucrative and fun job searching bank rolls of Quarters for the Delaware and Pennsylvania examples. For each $10 face value Delaware and Pennsylvania Circulated Roll they find, they may receive $16! Not a bad return for a day's play, whoops I mean pay.

Besides State Quarters, the **entire** Washington Quarter series is active. Singles and BU Rolls are sought after. Dealers are seriously looking to buy complete sets of Washington Quarters. Strong Bids have been posted for BU sets of Quarters from 1932-1964. Brilliant Uncirculated sets that are evenly matched can command an amount greater than $2,000.

Further testament to the amazing popularity of Quarters is the fact that the U.S. Mint has finally sold out of Quarters-Only Proof Sets. If there was ever any doubt as to whether or not the popularity of Quarters would continue into the year 2000, all such doubt should now be removed as a result of these recent developments in the market.

Mint State Type is strong and generating many plus signs this week. Increases are seen among MS63 and MS64 issues. Three-Cent Silver, Liberty Seated coins, Barber Dimes, 20-Cent pieces and Capped Bust Half Dollars are participating. Select Proof Type is also increasing.

Deep Mirror Prooflike Dollars are realizing strong demand. Dealers are willing to pay very strong money for select dates. In each case, the coin must really be nice with a cameo appearance. Quality remains in demand for many coin series.

Common date Circulated Morgan and Peace Dollars are down in VG, Fine, VF and XF condition. Premiums have also dropped considerably for Uncirculated American Eagle Gold Bullion coins. With Y2K now a distant memory, these coins have lost some of their appeal as an investment for safety and security.

This Week's Market

MERCURY DIMES: The strength of the market is evident by the fact that last week's increases have support this week. Dealers are showing a willingness to pay current Bid for Mercs that have recently gone up in price, particularly in MS64FB and MS65FB.

WALKING LIBERTY HALVES: The market for Walking Liberty Halves has quieted somewhat. Volatility has changed to support in many cases especially for key and semi-key dates in higher grades. As has been the case for months now, strong short set support is present in grades AU50, MS60 and MS64.

DOLLARS: Low grade Morgans are down from VG to XF for a large number of generic dates. Conversely, higher grade common dates are up, though for a much smaller number of specimens. Peace Dollars are off in VG and F this week, dropping further for several common examples. Support is still strong, though, for semi-key dates in higher grades.

PROOF SETS AND MINT SETS: The wholesale market for modern Proof Sets is very strong. Numerous dates are sought after, and prices have risen as a result. The Mint State Set category is still a little sluggish. For the last several weeks now, we have monitored very little movement in this market segment.

COMMEMORATIVES: Dealers seem content to pay posted Bids for higher grade Silver Commems; last week's predominantly positive adjustments have leveled off, resulting in a great deal of support. Marketmakers continue to up the ante for the recently popular 1893 Isabella Quarter. It appears the Quarter craze shows no sign of ending. Modern Silver Commems are stable. The 1997 P Law Enforcement and the 1988 Black Patriots issues are both up in BU and Proof. Please note that we have added the **1999 P Dolly Madison** and **1999 P Yellowstone National Park Silver Commems**, as well as the **1999 W George Washington Five Dollar Gold Commem** to the *Greysheet*.

TYPE: The Type market is more active than last week; demand for Mint State Type coins has increased for numerous denominations, and healthy Bid support is present as well. Proof Type coins continue their strength, and Three Cent Nickels remain strong, with an increase in PR65 to $430.

GOLD: Proof American Eagles are on the rise, though the premiums for Uncs are lower. U.S. Gold is stable, with minor volatility consisting mostly of increases in lower grades. We have added **1999 Modern American Eagles** to our chart! 2000 dated Eagles will also be covered as the market develops.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or raw (uncertified). But the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks encountered, after discounting certain trades at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified (sight unseen) market, which already includes consideration of the differing costs. Bids for a sight-seen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activity of the high bidder, but will be changed if exceeded by Bids which are higher or Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above these when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 Choice BU: Brilliant Uncirculated (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the added feature of deep mirror surfaces on both sides.

PAYING DOUBLE FOR CIRCULATED STATE QUARTERS

GOLD TREASURE COMING TO LONG BEACH

The Market in Depth

Demand for the State Quarters continues to dominate the numismatic landscape. More and more dealers appear to be joining the hunt for examples in bag, BU roll, BU single or Circulated single quantity. This phenomenon is taking shape and soaring out of the gate as the fabulous **future** coin collector has developed Internet stocks did on Wall Street. Expectations of sales to a whole new market beyond the current rare base seem to be the driving force. Superior marketing various packages to present to the budding coin collectors. This has created considerable interest in those individuals looking for a way to tie the coins to an educational experience for their children. These Quarters are being offered via newspaper, radio, TV and the Internet. Dealers do not mind paying double face value for Circulated Delaware and Pennsylvania Quarters, along with near double for New Jersey Quarters, because they believe sets will readily sell at multiples of this price. Also, they need the earliest struck Quarters to complete sets. Most believe that the first State Quarters to circulate were probably hoarded in record numbers. Consequently, they are more difficult to come by for dealers. Due to demand, *CDN* has expanded page 3-A to include State Quarter listings.

With the Long Beach Coin & Collectible Expo on the horizon, dealers are looking to be in a strong cash position for the February 9-13 Southern California show. This year, the expo will provide a forum for the public's first view of portions of the *SS Central America* treasure. It is being put on display by its new owners, the California Gold Group, who include Dwight Manley, John Albanese, Ira Goldberg, Larry Goldberg and Q. David Bowers. Their purchase breaks the record for the **largest** numismatic transaction. $20 Liberty Gold coins dated 1857-S and pioneer Gold bars, including a single bar weighing nearly 80 pounds, will be some of the recovered gold on display.

Dealers are looking to buy coins for inventory and fill customer want lists. Common date Carson City Morgan Dollars are up in AU and MS60. Common date Morgans are up slightly in VF and XF, but down in MS64 and MS65. Additional dealer needs include high-grade Washington Quarters, Mint State and Proof Type in MS64 and better, early 18th century Type in Fine and better, and better date Circulated Indian Cents, Mercury Dimes and Walking Liberty Half Dollars. Rare date Gold is also needed. Dealers are looking for Type II Gold Dollars; Charlotte, Dahlonega, New Orleans, San Francisco and Carson City Mints of all denominations; and $20 High Reliefs.

This Week's Market

CENTS THRU HALVES: State Quarters have **exploded** with Bids nearly doubling in the last couple of weeks. Many new players have jumped in and are making markets. Nickels and Dimes are healthy, with selective increases hovering between 5% and 10%.

MERCURY DIMES: Strength for Mercury Dimes is spreading from its MS64FB and MS65FB base; healthy support is now evident throughout the market. Still dealers are not showing a willingness to pay above the current Bids.

WALKING LIBERTY HALVES: No real action to report this week, though demand for Walkers, especially for later date short sets, is present. While no one has taken any initiative to increase Bids, many dealers are accepting current prices and pursuing various dates.

DOLLARS: For the most part, things are looking up in the Morgan Dollar wholesale market. A large number of common dates show slight increases in VG MS63. Weakness is still apparent for higher grade generics, though. Peace Dollars are displaying more declines this week. Demand has decreased for numerous common date specimens in VF XF.

PROOF SETS AND MINT SETS: Early date Proof Sets have huge support as do modern date sets. Increases exist throughout the market, making this segment of numismatics extremely healthy. Mint Sets are alive. The jumps are plentiful and widespread. Both Proof and Mint Sets show higher prices for the 1999 State Quarter issues. This Commemorative program is having quite an impact on the world of coins.

COMMEMORATIVES: Dealers are looking for Silver Commems, and will pay current Bid and above for specimens in higher grades. Yet another segment of the rare coin market is feeling the positive effects of the Quarter craze, as Isabella issues are up again as much as 10% in MS60 and MS63. Gold Commems are quiet now, with no adjustments monitored.

TYPE: The Proof Type market is characterized by support at current levels. Previous positive adjustments for Three Cent Nickels seem to have acceptance by dealers, who are paying current Bid for these coins. Mint State Type coins are cooling off at the moment. Last week's action is taking effect in the form of stability, with no movement apparent.

GOLD: Gold Type is down in MS63 and MS64, with Gold Spot nearly $5.00 lower than last week's report. The remainder of this market is unchanged.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already in fact, considers sight unseen coins may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not charge Bid due to the bidding adjustment of the sight buyer, but will be strongly influenced by those coins are bought or sold which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above bid when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates unlisted. In the Lincoln series, spotted or otherwise unattractive rolls are worth less than listed prices and rolls with special eye appeal are worth more than listed prices. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; gem, full steps rolls (when available) bring higher prices. In the Roosevelt series, "bank bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices; "full steps" rolls—particularly the S-mint issues—are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walking Liberty halves are in the COIN

The PCI *Capsule...*

✓ $8.00 PER COIN
✓ 6-DAY SERVICE

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

The Coin Collector's Survival Manual – Revised Third Edition

by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS $14.95.

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business editor, ***NEWSWEEK***
"One of the most important coin books ever written." -***The New York Times***
"Should be read before a single coin is bought - and read again and again!" -***Coin World***

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably. This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped of if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

MORGAN KEYS ARE HOT
LONG BEACH EXPO UNDERWAY

The Market in Depth

The rare coin market enters February with very strong demand throughout many series and denominations. This is encouraging for the Long Beach Expo already in progress. The show will culminate February 13. Dealers are looking to add coins to their inventories along with filling demand by their customers. New customers are entering the market all the time. Many of these customers are financially secure and ready to begin serious collections. Others are looking to buy modern issues for their children and grandchildren. The State Quarter program has done its share to boost demand for U.S. coins. However, the State Quarters cannot take all the credit. The release of Modern Commemorative sets, e.g. the 1999 Susan B. Anthony Dollar and the 2000 Sacagawea Dollar, has also contributed to a market that is robust and vibrant.

Dealers are willing to post higher Bids for coins that are difficult to locate and easily placed. Key date Morgan Dollars are the focal point and most challenging aspect of completing a Morgan Dollar set. This is especially true if you are trying to find attractive, original white coins with nice eye appeal. Bids have increased for dates such as 1884-S, 1889-CC, 1892-S, 1893-S, 1894, 1895-O, and 1896-O. Dealers are looking to pay top dollar for nice coins in grades ranging from MS63 through MS65. Higher grades would certainly receive their attention as well. Deep Mirror Prooflike Morgan Dollars are also in need. Increases are taking place for select issues in MS63 DMPL and better condition. The problem that many dealers face today is that of availability. The demand is strong, and we know that there is enough money to buy these coins. Unfortunately, the dates are quite elusive.

Silver Commems are also in need in MS64 and better. Dealers are trying to locate white, attractive and original Commems for their customers. Demand has also forced Bids higher for Draped Bust Dollars in MS63 and better. These Dollars are not readily available, and nice examples can realize strong Bids. Customers working on Proof Type sets are responsible for dealers' increases for selected Shield Nickels, Liberty Seated coinage and Trade Dollars. Weakness is seen for some Morgan Dollar Proofs.

This is also an active time for public auctions. Dealers will be logging many hours viewing lots and sitting through long auctions. The pay-off can be rewarding as many scarce dates and varieties are available through this medium.

This Week's Market

MERCURY DIMES: As with last week, demand for Winged Liberty Dimes is present throughout the entire market, and not limited to just MS64FB and MS65FB examples. Dealers are unwilling to pay above current Bid though, with one exception the 1927 S in MS63 is up to $375.00.

WALKING LIBERTY HALVES: Marketmakers have risen to the occasion and placed stronger Bids for several key and semi key issues this week. After such strong support week after week for Walkers, dealers have finally shown that the demand for these coins is going up. Still, we have yet to see an increase in the short set dates, which have had the most consistent support in this market for months now.

DOLLARS: Morgans are **volatile** in MS60-MS65, primarily with healthy increases for semi-key and key dates. Most of these increases are in the 10% to 15% range. A good number of DMPLs are jumping as well. Peace Dollars show very little movement though a few small changes exist for common dates.

PROOF SETS AND MINT SETS: Strength continues for Proof Sets, as dealers chase a number of dates throughout the market. Support and higher Bids clearly show this increase in demand. As for Mint Sets, the **early sets are hot**, with across the board increases. Further increases and support demonstrate that the Mint Set market as a whole is quite strong at this time.

COMMEMORATIVES: Higher grade Silver Commems are still in demand, as dealers are increasing Bid for several issues. Gold Commems remain quiet, though there is some notable support for Lewis and Clark issues in MS64 thru MS66. Modern Silver Commems are stable, with a few small increases. The Five Dollar Gold 1997 W Jackie Robinson, which has been on the rise over the last few months, has higher demand this week in BU and Proof.

TYPE: Some volatility colors the Proof Type chart this week. Support is virtually everywhere, and mostly positive adjustments are found for a few Liberty Seated Half Dollar issues. There is movement in the Mint State Type market. Very strong support is back for a variety of issues, and demand is up for Draped Bust Dollars, Heraldic Eagle, in MS63-MS65. New collectors coming into the market may be part of the reason for the current strength of the Proof and Mint State Type segments.

GOLD: Spot Gold has gone crazy in the last few days, shooting up over $25 only to fall back around the $300 level. Gold Type is off with only generic Double Eagles up due to Gold spot. American Eagles are up in BU since our last report when Gold was lower

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and sales to arrive at sight-seen "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest Legitimate Bid and lowest Legitimate Ask and represent sight-seen values at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes [illegible] sight-seen values may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid/Ask to the [illegible] which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are to Dealers. Dealers typically charge you [illegible] when purchasing coins in a retail transaction and may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCG5, NCI, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. [illegible] some toning, but it should not be dark or [illegible] any problems; will have many bagmarks and may show weakness of strike. Above average [illegible]

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Proofs of such seldom encountered specimens are based upon the merits of each coin. They range from very rare to unknown according to date.

Deep Mirror Prooflike: [illegible] characteristics [illegible] Mint. Many Morgans, but with the exception [illegible] any [illegible]

Please Note: This page alternates weekly with Page 14 which [illegible] and Proof [illegible]

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

DEMAND PRESENT FOR OLD AND NEW
LONG BEACH GOLD ENTERTAINS VISITORS

The Market in Depth

Dealers were actively trading coins with each other at the beginning of the February 9-13 Long Beach Expo. By Friday, the show hit a lull, which decidedly ended when droves of people visited on the weekend. Publicity surrounding the Ship Of Gold exhibit helped to bring out the public, which was especially noticeable on Saturday. Generally, dealers were pleased with their transactions and the upbeat nature of the show.

The public was fascinated and inquisitive during the expo. Long lines formed to view the treasure on display in a replica of the ill-fated *S.S. Central America*. Through each of the replica ship's portholes, 1857-S $20 Liberty examples, along with Gold Bars from the California Gold Rush era, were visible. "Eureka" was the star attraction as the 933 ounce 1857 Gold Bar, produced by San Francisco assayers Kellogg & Humbert, was prominently displayed. The display of 100 Series 1934 $10,000 Federal Reserve Notes also got its share of the attention.

Interest in rare coins and the Circulating Commemorative State Quarters is omnipresent in the market. Demand for scarce and key date Morgan Dollars continues unabated. Dealers also want quality scarce dates for most denominations. Competition has increased during the past few years, and dealers are knocking heads with one another trying to buy coins. One dealer at Long Beach said that everyone is looking to buy the key dates of all denominations in whatever grade they find. Bust, Liberty Seated material and early Silver and Gold Type were sought after.

The market continues to show strength for modern issues. Strong demand for State Quarters, Anthony Dollars, Eisenhower Dollars, BU Rolls, Proof Sets, Mint Sets, Sacagawea Dollars and Modern Commemoratives is a healthy sign that the rare coin market is poised to break out. Interest is running high, and collectors are financially sound enough to buy what they want. Dealers are attempting to keep pace by purchasing enough coins to meet this demand.

Heritage conducted the 2000 Long Beach Signature sale February 10-11. The sale realized more than $3.6 million, and featured the following collections: Richard Doyle, Indiana, the "East Coast Collection" of Standing Liberty Quarters, B. 'Doc' Holbrok, and Selig.

This Week's Market

CENTS THRU HALVES: BU Rolls are quite healthy, especially for Cents. The entire market shows strength in the form of higher Bids for a large number of Rolls. Halves are strong, with increases for 1993-S thru 1997-S 90% PR examples.

MERCURY DIMES: Dealers are now demonstrating that the mounting popularity for Mercs deserves an increase in Bid, at least for a few key dates in MS64FB. Support has grown and grown in this market, especially over the last few months. While most of the activity has remained in the MS64FB and MS65FB categories, demand has recently spread throughout the entire market.

WALKING LIBERTY HALVES: After last week's action, the Walkers have calmed somewhat. Still, demand is strong in high grades, with a few key date increases. Previous increases have support, showing the health of this market. Once again, the short set dates have a good deal of support, but no higher Bids yet.

DOLLARS: Widespread, mostly minor increases blanket our Morgan chart. Common, key and semi-key dates in virtually every grade are showing these positive adjustments. Peace Dollars are quiet, with the exception of semi-key dates in MS64, and several common dates in MS66, which are going up. Anthony Dollars are hot, with '79 and '81 Type II Proof issues up to $82 and $93 respectively. Dealers are once again paying premiums for '79 Near Dates at $6.

PROOF SETS AND MINT SETS: Proof Sets are definitely in demand, as the market shows a number of adjustments on the plus side, including the Mint sell-out of 5 Quarter Sets. The Proof Sets have certainly taken the spotlight this week, as Mint Sets have calmed since our last report, showing only a few small changes.

COMMEMORATIVES: Silver Commems are healthy, as has been the case for several weeks now. Higher graded examples are in demand, and dealers are increasing their Bids for a large variety of issues. Gold Commems are a different story, with no action to report here; the market remains unchanged.

TYPE: The Proof Type market is very stable now. Volatility has changed to support, especially for Three Cent Nickels and Shield Nickels. As with the Proof Type market, Uncirculated Type coins are also stable. Liberty Seated and Barber Dimes show some support and small increases. Otherwise, this category has quieted, especially compared to last week.

GOLD: Gold Type has strong support, with no increases to report, except for $3 Gold Pieces in MS64 at $4,700.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions, and covers the spectrum from sight-seen or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bid and lowest legitimate Ask at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which trades on considerably narrower spreads. Bids for sight-unseen coins may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bids due to the bidding activities of one large bidder. Bids will be considered firm for those coins for which we have multiple bids higher or bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above bid on your purchases. If you purchase coins in a retail transaction, you may also commission a Dealer for your purchases.

The PCI *Capsule...*

☑ $8.00 PER COIN
☑ 6-DAY SERVICE

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

The Market in Depth

Proof Sets and Mint Sets are in strong demand. Bids have been increasing at a rapid rate, even for those sets which sell below $6. This powerful market is coming from new and seasoned collectors alike. Selling these sets on the expanded retail avenues such as television and the Internet has made a difference by making this material available to a larger number of potential collectors. Consequently, quantities of Proof and Mint Sets are needed to meet the demand. Look how nicely some of these sets have performed in just six months.

Proof Sets	CDN Bid 8/27/99	CDN Bid 2/25/00	% Change
1997 S Sil. Pres.	$28	$51	+ 82.14%
1997 S Sil	$28	$50	+ 78.57%
1986 S	$11	$18	+ 63.64%
1995 S Sil.	$43	$66	+ 53.49%
1995 S Sil Pres.	$45	$66	+ 46.67%
Mint Sets	**8/27/99**	**2/25/00**	
1968	$1.70	$2.60	+ 52.94%
1972	$2.00	$2.90	+ 45.00%
1971	$2.60	$3.75	+ 44.23%
1993	$4.20	$6.00	+ 42.86%
1966 sms	$3.50	$4.75	+ 35.71%

Specific dates are still very much in demand. Morgan Dollars continue to shine, as Key and semi-key dates in this series are realizing supporting Bids at very strong levels. This is true for the key dates 1884-S, 1889-CC, 1892-S, 1893-S, 1894 and 1896-O. Deep Mirror Prooflike semi-key examples are generating the same type of demand, and Bids are rising for nice eye appeal coins. Increases have occurred for MS64 and better quality Dollars. Our Morgan Dollar chart also displays MS60 common dates at $18. Demand has even entered the AU grade category, with several Carson City Dollars up in AU50. Until the demand is satisfied, Bids will most likely continue to ascend in order to meet the needs of customers.

Stack's will conduct a public auction featuring the E. George Elliott Southern collection of Dahlonega and Charlotte Mint Gold. The sale will be held in New York March 15-16. The collection includes six 1854-D $3 examples and several coins believed to be among the finest known. We listed a few of the highlights from the upcoming sale.

Date	Denomination	Grade
1861-D	$1 Indian Head	Choice BU
1840-C	$2.50 Liberty	Choice AU
1854-D	$3 Indian	Choice XF
1879	$4 Flowing Hair Stella	Choice PR
1858-D	$5 Liberty	Choice AU

This Week's Market

MERCURY DIMES: Continued support throughout the market shows that the previously limited demand has expanded dramatically. Supporting Bids cover our entire Merc chart, but widespread Bid increases have yet to be posted.

WALKING LIBERTY HALVES: Short set and high grade Walkers are strong again this week, though the rest of the market is rather inactive. This may be a result of the volatility from a few weeks ago, which seemed to cause the market to stabilize.

DOLLARS: Key and semi-key Cartwheels are especially vibrant, with a number of increases throughout the market and across the grades. Peace Dollars, on the other hand, are a bit weaker. Decreases have moved from the lower grades (which have taken hits over the past several weeks) to Uncirculated examples. Generics as well as semi-key issues are down in MS60-MS65.

PROOF SETS AND MINT SETS: Proof Sets are in very good shape, as numerous dates show higher Bids, including the 1999 S Quarter Sets. Mint Sets have definitely awakened. Virtually every date is either climbing or has supporting Bids. This rise in demand may be a result of increased public accessibility to such sets through expanded media opportunities, e.g. television, the Internet and mainstream print.

COMMEMORATIVES: A rather different report for Silver Commems this week. As a result of recent auctions, a number of issues have gone down, particularly in higher grades. The decreases are not huge, but they are plentiful. Gold Commems are stable, with no adjustments to report. Modern Silver Commemorative Half Dollars are showing some life, with the 1995 S Civil War issue up in BU and Proof. Silver Dollar Commems also have a few increases, in BU only. The 1997 W Jackie Robinson $5 Gold Commem, which has been on a rather steady incline for months now, is rising again in Proof, to a Bid of $175. The $5 1999 W George Washington is strong this week, with Bid jumps in both BU and Proof.

TYPE: Wholesalers are paying current Bid to acquire Proof Type coins. Virtually all denominations have strong support, especially in higher grades. Proof Matte Lincoln Cents in Brown are very strong, as are Three Cent Nickels. Mint State Type is strong with support this week. Two Cent Pieces in Red and Brown are very healthy, with support from MS63-MS65.

GOLD: U.S. Gold Type continues to have strong support, as with last week. In fact several examples have moved from previous support to higher Bids, especially for MS63 issues.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S coin series (2 grades each, avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green label PCI Bids are for slabbed coins only. INS bids are for blue certs. The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all [illegible] traded [illegible] sight-seen or 'raw' but uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bid and lowest legitimate Ask at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which [illegible] sight-seen may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid Ask in the buying extremes of the high bonds, and could be changed only if Bids are higher or Asks which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions and [illegible] pertaining [illegible] a retail transaction you may also consider a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre; may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and or weakly struck.

MS63-Choice BU: Brilliant Uncirculated; may exhibit some toning, but it should not be so dark as to have any problems; will have some bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very near to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but will [illegible] of the mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 1B, which contains BU and Proof Rolls.

MIXED MARKET BEGINS MARCH
MID-WINTER ANA UNDERWAY

The Market in Depth

Interest continues for select Dollars. We have monitored the development of this pattern over the last few months. Strong demand is appearing on a weekly basis for scarce, key and semi-key Morgan Dollars. Dealers report having financially sound and astute collectors looking to build complete sets of Dollars. Quality is very important. Attractive, white Morgans with full strikes for the date are needed. Bids are increasing for select dates because there are just not enough quality examples available. Many rarities are already in collections which have been taken off the market for an indefinite amount of time. Some key-date specimens are out there, but many are considered average or below average for the grade. Consequently, they are not realizing the strong money dealers are willing to pay for finer examples. Coins with **pizzazz** or those deemed premium quality for the grade are readily able to claim the big bucks.

Deep Mirror Prooflike and high-grade, key-date Morgan Dollars are being targeted for collections. Although Bids have increased, the lack of coins turning up at these new levels has forced dealers to increase their Bids even more. Deep Mirror Prooflike examples benefiting from this demand include 1878-CC, 1882, 1882-O, 1886-O and 1889-O. Better dates such as 1884-S, 1887/6-O, 1889-CC, 1892-S, 1893-S, 1894, 1895-O and 1896-O are some of tough dates displaying plus signs or realizing strong supporting Bids this week. These dates are difficult to shake loose even though Bids have increased because they are in such very strong collector hands. This inelastic demand is an important problem. Replacement is always on dealers' minds. Inventories suffer as quality coins are placed and availability of quality rarities remains tight. Common date Morgans are still weak, especially in MS65. However, a small increase is taking place in MS66 Peace Dollars.

Gold is quietly trading at current levels. Rare dates that are exceptional for the grade are quickly bought. Early Gold and dated Liberty Gold is in demand. Buyers are picky, and those that do not measure up in quality are quickly and drastically discounted. Proof Gold is steady at current levels. The Proof and Mint State Type markets are also steady. Increases for select issues are evident, but eye appeal is key to most transactions.

Most dealers will be in Ft. Lauderdale, FL attending the American Numismatic Association's National Money Show March 3-5. The Midwinter ANA is one of the largest and busiest coin shows held each year. Dealers use this opportunity to trade with each other and meet new customers.

This Week's Market

CENTS THRU HALVES: Cents are showing continued strength, as are Halves. These Rolls have the greatest demand in what appears to be a very strong market overall.

MERCURY DIMES: Demand is strong for Mercury Dimes, as demonstrated by the ongoing support for various dates throughout the grades. With only a few exceptions, though, increases are not taking place.

WALKING LIBERTY HALVES: Volatility is back in the Walker market. Numerous key and semi-key specimens show positive adjustments, predominantly in higher grades. We have been monitoring this recent alternating pattern of action and stability for several weeks now.

DOLLARS: Morgans maintain and even increase their strength this week. Generic, semi-key and key-date examples are rising throughout the grades. Since Morgans are a "staple coin," new collectors entering the hobby cause an increase in demand resulting in higher Bids. Peace Dollars are somewhat healthier than previously reported. While the low grade, common dates are still in the doldrums, several slight increases have taken place for generics in MS60 thru MS65.

PROOF SETS AND MINT SETS: It seems there is no stopping these Proof Sets. For several weeks, the market has gotten **stronger**. This week is no different. Very healthy support and widespread increases mark our current Proof Set chart. A powerful Mint Set market is also apparent, as positive adjustments dominate our report.

COMMEMORATIVES: Silver Commems are mixed, with a good amount of volatility taking place in higher grades. The market may be trying to stabilize from the backlash of recent auctions. Booker T. Washington PDS Sets are a particularly bright spot, though; almost all dates are up in AU50. Gold Commems have gone unchanged for weeks, with no exception at present.

TYPE: Mint State Type coins have calmed since last week's action, with only a few adjustments to report: Liberty Seated Dimes are showing weakness in higher grades. The Proof Type market has also slowed down. Nevertheless, support remains strong, and Three Cent Nickels show even greater demand.

GOLD: U.S. Gold Type is mixed; most of the volatility exists in higher grades for key and semi-key pieces.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen or "raw" uncertified, but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks encountered by our reporters at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already [illegible] a sight seen coin may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid levels to the full [illegible] of the spot market, but will be strongly influenced by significant changes in spot which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this publication are Dealer to Dealer. If, however, you intend to buy a particular coin in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise colored rolls are worth less than cleaned pieces, and 'gem' rolls often bring more. In the Jefferson series, some of the rolls in the late 80's tend to be dark, thus luring lower prices; gem, full steps rolls command a premium. Long Island prints of the Mercury series, gem, full bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls, also in 'put together' lots, bring lower prices (but still strong values), especially the 1-mint issues are worth more than listed prices. Mc-Morgans may be found in the MONTHLY SUPPLEMENT. Mercury & Walker rolls are in the CORE.

SPRING BRINGS MARYLAND SHOW
COLLECTOR DEMAND STRONG

The Market in Depth

Many dealers will soon be heading to the annual Spring Suburban Washington-Baltimore Coin & Currency Convention, which will be held March 23-26 in Baltimore. This is one of the country's most active and attended shows, as it draws collectors from surrounding, heavily populated metropolitan areas. Bowers and Merena will conduct the Lindesmith collection auction March 23-24. An MS64 1858 $10 Eagle and a High Relief 1922 Matte PR64 Peace Dollar are among the auction's classic rarity highlights.

Supporting Bids is one way of measuring the strength of the market. Often, an increase in the number of supporting Bids at current levels is a precursor for Bids surpassing current levels. It also may suggest that collector demand is increasing. Regardless, the overall rare coin market is displaying an increasing number of supporting Bids at current levels as well as an increasing number of Bids within 10 percent of the top Bid. This is evident for many Circulated and Uncirculated coins from early Large Cents and Small Cents through Silver Dollars and Gold denominations. These coins are solid collector coins. For example, Barber Dimes, Quarters and Half Dollars are needed in all Circulated grades. Many collectors are working on sets of Barber coins, and specific dates are in short supply. Savvy collectors are looking to buy problem-free key and semi-key dates in all Circulated and Uncirculated grades. They do not want coins that have been artificially brightened or cleaned, exhibit dark toning or look lackluster. Original, problem-free fresh examples are realizing very strong Bids, and are easily placed with customers.

Modern coinage has surely caught fire. BU Rolls, Proof Sets, Mint Sets and BU Sets are in demand. Among complete sets, Brilliant Uncirculated Jefferson Nickels, Roosevelt Dimes, Washington Quarters, Franklin Half Dollars and Eisenhower Dollars are all realizing strong Bids. Better than average sets that are reasonably well matched are badly needed. Bid has gone way above current levels for typical BU quality sets.

This Week's Market

MERCURY DIMES: Winged Liberty Dimes have changed little since last week. Strong, ongoing and diversified support describes this market accurately.

WALKING LIBERTY HALVES: The ebb and flow condition continues. If you are keeping score, you'll recall last week's volatility (in following with the recent pattern) portends this week's stability. Indeed, the Walker market is stable at the moment, but the robust support for short set dates across the grades may be a condition worth watching closely for a possible break-out in Bid.

DOLLARS: Cartwheels are mostly stable, though many low-grade common dates are very slightly discounted. MS60-MS65 examples, including generics and semi-key issues, display several, mostly minor increases. Peace Dollars show little movement, as with last week, with VG common dates continuing to decline. Premiums are up again for Silver Eagles; with the exception of the 1987 example, all issues are Bid at $8 and up.

PROOF SETS AND MINT SETS: Proof Sets remain strong. Support and several Bid jumps characterize the current market. Marketmakers are readily paying current Bid for Mint Sets, which are very stable this week.

COMMEMORATIVES: We see a good amount of support in higher grades for Silver Commems. Also, our previous bright spot has gotten even brighter. Most Booker T. Washington PDS Sets are up again this week in AU50. Washington/Carver PDS Sets are up in AU as well. Gold Commems continue fundamentally unchanged this week, with overall stability and some high-grade support. Modern Silver Commems are rather stable, but Five Dollar and Ten Dollar Gold Commems have taken a hit due to a weaker Gold Spot.

TYPE: A stable, very well-supported Mint State Type market exists this week. Two Cent Pieces in Red and Brown, as well as Barber Dimes, are especially healthy. Proof Type coins have strong demand throughout the market at current Bid. Three Cent Nickels remain very hot across the grades.

GOLD: $1-$3 issues are stable across-the-board, but there are numerous negative adjustments throughout the remainder of the U.S. Gold Type market. This may be a result of the recent Gold Spot decline since our last report.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, concentrating all possible trades [illegible] sight-seen raw, uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which normally [illegible] sight-seen may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN does not change Bid due to the [illegible] or sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect a premium above these prices for buying small or a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60–Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63–Choice BU: Retains [illegible] may exhibit some toning, but it should not be so dark as to hide any problems; will have minor bagmarks and may show weakness of strike. Above average eye-appeal.

MS64–Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65–Gem BU: Sharp, full strike, full lustre. No major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67–Superb: Will be 100% [illegible] strike and virtually perfect in all other respects. Pieces of such seldom encountered specimens are based upon the merits of each coin. They range from very close to unknown actual [illegible]

Deep Mirror Proof-like: [illegible] Ultra-[illegible] of the contemporary. More than Mirror, but with the additional feature of [illegible] surfaces or [illegible]

*Please Note: This page alternates weekly with Page 4A which [illegible]

ACCUGRADE'S FIVE $99 SERVICES

TIRED OF PAYING TOO MUCH FOR CERTIFICATION ?
WE ARE 50% TO 84% LESS THAN THE COMPETITION.
SLAB 3 COINS-CARDS FOR $49 AT SHOWS WE ATTEND.
3,446 COINS SUBMITTED AT LONG BEACH SHOW A RECORD !

ACCUGRADE has graded coins since 1984 when Mr. Hager invented slab certification for coins and went on to establish the standards by which all coin grading services operate to this day. **PCGS-PSA-David Hall paid Licensing Fees for Mr. Hager's Patent & Inventions.** ***ACCUGRADE*** has set up 11 other certification services since 1986. ***ACCUGRADE*** slab holders are compact, stackable, scratch resistant and fit in 2 x 2 boxes. They are twice as strong as the competitions', 30% to 50% lighter in weight and 1/3 to 1/2 smaller in size.

ACCUGRADE uses individual dies for each coin size we certify, this guarantees over the long term that no coin will be contaminated by a PVC film. We do not use ***RUBBER INSERTS or SOFT COIN RINGS.*** Mr. Hager, the founder, Patented the Card & Beanie Slab holders, and has also written five books on coins and sportscards. We offer the lowest fees in the industry, from $3.96 to $16.33 a coin.

To date, ASA has graded and authenticated over 370,000 individual items valued at over 325 million dollars.

ACCUGRADE™ INTRODUCES NEW TRADEMARKED SERVICES:

MIRRORLIKE™ or ML™ grading service for modern issue mirrorlike surface coins.
FROSTED WHITECAM™ or FWC™ grading service for proof coins with frosted white surface with no film or spots, is a grade above an Ultra or Deep Cameo Proof, the first off the dies.
FULL SPLIT HAND or FSH™ grading service for Walking Lib Halves that exhibit a Full Split Hand.
FULL TAIL or FT™ grading service for Buffalo Nickels that exhibit a Full Tail on the Buffalo's hind.
FULL BEAK or FEB™ grading service for Washington Quarters & Kennedy Halves that exhibit a Full Split Beak Eagle's beak. ***No charge for these Copyrighted and Trademarked services exclusive to ACCUGRADE.***

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 11 March 17, 2000 *. . .a Friday morning report on the Coin Market*

SELECTIVE DEMAND YIELDS STRONG PRICES
CIRCULATED ISSUES APPEAR ON WANT LISTS

The Market in Depth

It appears obvious from strong Bids that it is becoming more and more difficult to find coins. Specific needs remain unfulfilled and must be met in a reasonable amount of time. The collector base is **strengthening**, and dealers are trying to satisfy the demands of collectors. Proof Sets, Mints Sets and modern coinage continue to be hot.

Customers are cognizant of the demand and price increases. Consequently, they are expecting and willing to pay a higher price for their coins. When collectors submit a special order, the price of the desired material may spike up for a brief period of time until the order is satisfied. Often, after the demand is satisfied, the current price will return to its previous level. However, if the scarcity still exists, or if the demand has created even more interest, the price may remain at its new higher level.

Demand is strong in many areas of the coin market. Lincoln Cents are increasing in value. High quality Lincoln Cents with their full, original Red color can command a premium. Dates needed are from 1909 thru 1931-S. Collectors are trying to buy the tough Denver and San Francisco Mint Cents from the teens and twenties. Increases are occurring in MS64 Red and better examples.

Barber Dimes are *selectively* strong. Collectors are quick to buy a nice, rare Circulated example. Many dates throughout the series are tough to find in attractive, no-problem Circulated condition. We do notice that common dates grading MS65 are trading down just a bit.

Rare date Gold coins have been hit by some profit taking. A few select dates are displaying minus signs. Some of this weakness is a result of steep rising prices that have occurred during the past year. Specific dates are still on want lists, and when they appear, they are quickly bought.

Increases are seen this week for select MS65 Gold Type. Demand is pushing the price higher for $10 Liberty Motto and $20 Liberty Type 3 issues. Generally, the Type Gold market along with Mint State Type and Proof Type coinage is steady at current levels. Selective buying in these categories is occurring. Coins that are considered to be premium quality for the grade can command exceptional prices.

This Week's Market

CENTS THRU HALVES: This very solid market is growing week by week particularly for Cents and Halves. Nickel Rolls are showing fresh, positive adjustments as well.

MERCURY DIMES: While support is still strong in this market, we have yet to see an increase in Bid for several weeks. Current Bid definitely has widespread acceptance throughout the grades, which may suggest an eminent increase in demand.

WALKING LIBERTY HALVES: Positive movement colors our chart for a few high grade Walkers in MS64 and MS65. Lower grade issues from '41-'47 D continue to be in strong demand.

DOLLARS: Morgan Dollars remain stable. Some low grade common dates are climbing slightly, but generally speaking, this market is quiet. Peace Dollars continue to lose ground in VG and F for generic issues. We have been monitoring this condition for weeks now.

PROOF SETS AND MINT SETS: Proof Sets show several increases this week, but Mint Sets are definitely in the spotlight, with strong and very plentiful Bid jumps throughout the market.

COMMEMORATIVES: The last several weeks of volatility have finally left a stable market for Silver Commems. Current Bid has excellent support, especially in higher grades. Stability and higher grade support remains the name of the game for Gold Commemoratives.

TYPE: Excellent support throughout the Uncirculated Type market is still visible. The always popular Two Cent Pieces in Red and Brown remain in strong demand. Similar to last week, Proof Type coins are quite healthy, with Three Cent Nickels particularly popular.

GOLD: U.S. Gold Type coins are mixed, though the majority of adjustments are negative.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell, sight seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks encountered. They do not necessarily reflect the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market, which already includes a premium over the **sight seen** market. Bids may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding activity of the high bidder, and will not knowingly publish Bids or Asks that are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask prices when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates covered. In the Lincoln cents, split-bar varieties (those with the bar between the letters) often command premiums. Full steps on the Jefferson nickels, full bands on the Mercury dimes, and full bands on the Roosevelt dimes are worth more than listed prices, particularly the pre-1941 issues. Washington quarters dated pre-1965 are worth more than listed prices, particularly the S-mint issues. MS-65 examples may be found in the MONTHLY COIN PRICE GUIDE. A dash (—) indicates insufficient data.

HUGE DEMAND FOR MODERN COINAGE
KEY MORGANS STRONG

The Market in Depth

Modern coinage is hot. Bidders are scrambling to get their hands on 1995 Silver Eagles in Proof. The current Bid at $62 represents an increase of over 100% from only two years ago. Modern Proof Sets and Mint Sets have a similar story. In some cases, Bids have tripled since March of 1998. Modern Commemoratives also show giant gains for several issues. The 1996 S Soccer Half Dollar in Proof has risen to over three times its Bid in '98. Numerous Modern Commem Silver Dollars have gone through the roof in two years! 1995 D thru 1996 S Olympic issues in BU show massive increases of nearly five times their two-year-old Bids. Clearly, the area of modern collectible coins has the attention of marketmakers and the demand from collectors.

Key Morgan Dollars are a shining example of healthy demand for a more traditional rare coin. Strong interest continues for the key dates of this illustrious series, particularly for coins that are brilliant white with strong strikes and eye appeal. Coins that meet this criteria are quickly bought. Dealers tell us they are willing to buy several of these rarities at these prices. The grades needed are high considering the rarity of the date. Some of the increases occurring this week include 1889-CC, 1894, 1896-O and 1897-O. Other key dates are still sought-after at strong levels. Bid jumped $2,500 — to $127,500 — for the 1896-O in MS65 condition.

Gold Commems are active. Demand is targeting MS64, with plus signs occurring throughout this short series. Silver Commems are also increasing. Select issues are realizing higher Bids. Quality MS65 and better condition examples are needed.

Undeniably, there is *plenty* of cash waiting for the right coins. If these coins were to appear on the market at current levels, there would probably be a feeding frenzy. Demand is strong because there is an increase in customers just waiting to buy. These are extremely knowledgeable customers who want coins that have strong eye appeal. They want better date examples that have very few problems or distracting marks. Many buyers are well-heeled and are willing to buy coins at current levels for themselves or their children. As these coins leave the market for indefinite amounts of time, it only adds to the demand and supply problem. Availability problems continue to plague the rare coin market, and finding coins is a never ending challenge. Clearly, only the quality rare coins at each grade level are realizing the strongest demand. Coins considered overgraded or lackluster are receiving little attention.

This Week's Market

MERCURY DIMES: Mercury Dimes are in demand. Current Bid has widespread acceptance, and a few increases have finally emerged. Major players most likely sense the health of Mercs and are now willing to raise a Bid here and there to test the water.

WALKING LIBERTY HALVES: Support is growing for MS65 examples of Walking Liberty Half Dollars, especially for semi-key dates. Bidders are willing to pay higher levels from last week's adjustments in this grade category, further suggesting the strength of this market.

DOLLARS: Morgan Dollars are rather volatile this week. Most of the changes are small though several key date examples in MS64 and MS65 show slightly larger adjustments. Peace Dollars are mostly stable. The weakness in Fine examples continues, and more negative movement is found for common dates in MS64-MS66. Despite the drop in Silver Spot, Silver Eagles are up again this week, with dealers paying a **premium** of $3 for any date.

PROOF SETS AND MINT SETS: Proof Sets and Mint Sets are very strong this week. Both markets show numerous increases, and Mint Sets have *remarkable* support at current Bid from several dealers.

COMMEMORATIVES: Positive movement exists for numerous high grade Silver Commems. Support has been very strong in this area of the market for several weeks now, and this demand has finally evolved into Bid increases for several issues. A somewhat similar condition exists for Gold Commemoratives. Previous support in higher grades has changed to increases for a good number of examples. Modern Commems show several areas of strength. The 1996 S Soccer Half Dollar in Proof has skyrocketed nearly 50% to a Bid of $25. Also, the Rowing, High Jump and Community Service Silver Dollars in BU have all risen.

TYPE: Two Cent Pieces in Red and Brown, Shield Nickels With Rays and Barber Dimes have the attention of Bidders this week. Strong support and a few increases mark the popularity of these coins, with the remainder of the Mint State Type market doing quite well. The Proof Type market also has a couple of stars: Matte Lincoln Cents in Brown and Three Cent Nickels have virtually across-the-board support. Other than these highlights, a significant number of Proof Type coins are in demand, as has been the case for some time in this very robust market.

GOLD: The market for U.S. Gold Type has stabilized this week. Last week's volatility seems to have changed to support for a variety of issues in MS60-MS65.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen at the time, the point at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid/Ask due to the bidding adjustments of the last business day, when no changes are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over these prices when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCG5, NCI, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. [illegible] some toning, but it should not be so dark as to hide any problems) will have mint bagmarks and may show weakness of strike. Above average [illegible]

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the [illegible] Morgan, but with the [illegible] mirror surfaces of both [illegible]

Please Note: This page alternates weekly with Page 39 which contains BU and Proof Sets.

BOWERS AND MERENA AUCTION CLAIMS $2.2 MILLION
MORGAN DOLLARS, KENNEDY HALVES, PROOF SETS ACTIVE

The Market in Depth

This week, the rare coin market remains active, as many dealers have returned from a fairly successful Baltimore Show, where Bowers and Merena conducted the Lindesmith Auction, March 23 and 24. That sale realized more than $2.2 million. Though the Baltimore show was relatively brisk, the problem of availability continued to create difficulty in finding high demand coins for customers. Some believe this strong demand, coupled with the lack of coins, is a proper recipe for increasing prices.

The Morgan Dollar market continues to attract many Bids throughout its long series. While demand is steady for common dates in Very Good thru Mint State 63, there is a slight decrease for MS64 examples. Gem common dates, including MS65 thru MS67 graded Dollars, are steady at current levels. Carson City Mint Morgans continue to attract Bidders at current prices. Most "CC" dates are unchanged. However, the key date 1889-CC is higher in Very Good, Fine and Very Fine condition. Mint State "CC" Morgans are steady with Bids regularly supporting current levels. We do note that an increase has occurred for the MS60 and MS63 1878-CC issue. Demand is increasing for New Orleans and San Francisco Mint Morgans. Some of these may be earmarked for customers. Aside from continued weakness in lower grades, the Peace Dollar series is relatively quiet with an occasional trade at higher levels.

Kennedy Half Dollars are strong, with Bids increasing for BU and Proof Rolls. These Halves may have been overshadowed by all the attention that Quarters have received recently. Retailers may believe that the newest group of State Quarter collectors will graduate to the Kennedy Half series next.

Proof Sets are very healthy. In fact, the 1999 Silver Proof Sets have sold out from the U.S. Mint. These sets have proven to be very popular with collectors. The 2000 Sets will be available at the end of spring, and will most likely be sought after as well. Collector demand is very high, especially for modern coins. This is a result of the massive influx of new and returning participants to the numismatic hobby. The Commemorative State Quarter program and the recent release of the Sacagawea Golden Dollar, combined with clever, mainstream marketing tactics, have no doubt contributed significantly to the revitalization of coin collecting.

This Week's Market

CENTS THRU HALVES: Strength is definitely growing throughout the Brilliant Uncirculated and Proof Rolls market. Positive movement continues with Cents and Halves, as has been the case recently, but increases are now spreading to Nickels and Quarters as well. The only area of slight weakness is with several issues of Dimes from 1941 to 1945 D.

MERCURY DIMES: Several additional, small Bid jumps have occurred this week, mostly for common and semi-key dates in MS64-MS65FB. The overdates have also jumped $1,000 each in MS65FB. Widespread support continues in this market, which seems to be getting stronger all the time.

WALKING LIBERTY HALVES: Walkers are currently stable. Bidders are clearly willing to pay the going rate for a large number of issues in MS65, as well as Short Set dates in lower grades.

DOLLARS: Continued volatility characterizes the Morgan Market again this week. As with last week, most of the changes are small, and are predominantly affecting common date issues. Peace Dollars have yet to make a comeback. In fact, the lower graded coins in this market are declining once again.

PROOF SETS AND MINT SETS: Proof Sets and Mint Sets are apparently unstoppable. Week after week, higher Bids appear, and support grows. This pattern continues for our current report on these very robust and popular sets.

COMMEMORATIVES: Silver Commems are showing some volatility, which exists in the form of higher Bids. The stars this week are the Booker T. Washington and Washington-Carver PDS Sets. Virtually every date has increased in AU, and the higher grades for these sets have plentiful support. The remainder of the market is well supported with acceptance of current Bid. The market has calmed for Gold Commems, which show no movement at this time, though support is strong for most Mint State Graded specimens.

TYPE: The Mint State Type market is maintaining its strength this week. These coins are in strong demand at present levels, throughout the grades. Proof Type is stable, with widespread support.

GOLD: U.S. Gold Type is suffering as a result of a lower Gold Spot.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices, and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. "Gem" full steps" rolls (when available) bring higher prices. In the Mercury series, "gem" full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls "dull or "pot together" bring lower prices. "Gem Uncirculated Washington Quarters", particularly the S-mint issues, are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Morgan & Walker singles are in the 1998

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

20TH CENTURY SETS IN DEMAND
COLLECTOR BASE EXPANDING

The Market in Depth

The advent of the Circulating Commemorative Quarter program has given the rare coin market a boost since its inception. It has been received favorably by the general public and the collector community. U.S. Mint officials and numismatists thought this program would be successful, but they had no way of knowing the full extent of that success. Several dealers have had the foresight to prepare for this **inexorable** demand, and in many respects stay ahead of it. Others have even curtailed their attention to older and rarer coins to reap the profits from today's modern coins.

The collector base has certainly expanded due to the new coinage, which received additional strength with the turning of a new century. As the year 2000 arrived, so did the need to acquire complete sets of all 20th century coins. Consequently, new collectors are chasing 20th century sets of Jefferson Nickels, Roosevelt Dimes, Washington Quarters, Kennedy Half Dollars and Eisenhower and Anthony Dollars. There are several advantages to these sets. For example, many of these series are affordable to new collectors. They are also reasonably easy to complete in high-grade, and the quality of these coins is such that minute differences between a grade or two is not a major problem. Why are Proof Sets increasing? The following anecdote may provide some insight: Recently, a dealer broke up more than *65,000 Proof Sets* just to get the Kennedy Half Dollars. He needed these singles to complete 20th century JFK sets.

The demand does not stop at Kennedy Half Dollars. Obviously, the price for original Proof Sets is increasing. Bids are jumping for early sets as well as late date sets. Recently, the 1999 Silver Proof Sets have been climbing higher. Since the U.S. Mint has sold out of these Silver Sets, prices have continued to increase. A similar scenario exists for Mint Sets.

BU Rolls of 20th century coins continue their torrid pace. The strong demand from the expanding collector base has forced prices higher for these items. Some may wonder if only the modern late 20th century coins will benefit. Most likely, this demand will find its way to the more expensive and rare classic U.S. coins as collector interest expands into new areas over time.

This Week's Market

MERCURY DIMES: The Merc Market is stable now after last week's action. Current levels have widespread support across the grades for a large number of dates.

WALKING LIBERTY HALVES: A couple of jumps on the Walker chart can be found for the 1916-D and 1919 issues, both in MS63. The remainder of the market has no movement, but plenty of acceptance for the going prices. MS65 Walkers as well as low grade examples from 1940-1947-D, have the greatest support.

DOLLARS: The market for Cartwheels is relatively stable. There is scattered activity throughout our chart, but most of the adjustments are small. A couple of "CC" specimens are up in MS67, including the 1881 CC, with an increase of over 8%. Peace Dollars are generally stable, though *minor* negative motion exists in VF and MS64. Silver Eagles' strength continues in Proof and Uncirculated, even though Silver Spot is down.

PROOF SETS AND MINT SETS: Proof Sets and Mint Sets are **monsters.** Increases and supporting Bids are all over the market. We have been monitoring this remarkably healthy segment of collectible coins for several weeks, and it simply keeps getting stronger.

COMMEMORATIVES: Silver Commems have maintained their demand. The positive action with the Booker T. Washington coins continues, with a few additional Bid jumps in AU50. Support for the previous increases exists as well, which may be indicative of ongoing strength in the future. Another highlight in the Silver Commem market is the Oregon Trail Memorial coins. There are modest but numerous higher Bids for examples in MS65. Support has changed to a multitude of plus signs on the Gold Commemorative chart. Numerous issues are up in MS64-MS65. Modern Commems are stable at current levels.

TYPE: Mint State and Proof Type coins are very stable and have their usual strong, supporting Bids. No significant positive movement has taken place this week.

GOLD: Weakness is spreading for U.S. Gold, as many more decreases have hit this market across the grades. On a positive note, the 1995 American Eagle 10th Anniversary Proof Set is up again — now Bid at $1,950.

Prices reported derive from the highest legitimate Bids and lowest legitimate Asks [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes [illegible] sight-seen [illegible] may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid/Ask due to the bidding adjustments of the high bidder. [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a commission above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc., may exhibit some toning, but it should not be as dark as to hide any problems; will have minor bagmarks and may show weakness of strike. Above average [illegible].

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both [illegible].

ACCUGRADE has graded coins since 1984 when Mr. Hager invented slab certification for coins and went on to establish the standards by which all coin grading services operate to this day. **PCGS-PSA-David Hall paid Licensing Fees for Mr. Hager's Patent & Inventions.** *ACCUGRADE* has set up 11 other certification services since 1986. *ACCUGRADE* slab holders are compact, stackable, scratch resistant and fit in 2 x 2 boxes. They are twice as strong as the competitions', 30% to 50% lighter in weight and 1/3 to 1/2 smaller in size.

ACCUGRADE uses individual dies for each coin size we certify, this guarantees over the long term that no coin will be contaminated by a PVC film. We do not use ***RUBBER INSERTS or SOFT COIN RINGS.*** Mr. Hager, the founder, Patented the Card & Beanie Slab holders, and has also written five books on coins and sportscards. We offer the lowest fees in the industry, from $3.96 to $16.33 a coin.

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

ROLL MARKET REVITALIZED
BIDS BOMBARD BARBERS

The Market in Depth

With the rare coin market *selectively* strong, having the right, popular items makes selling "a piece of cake." A perfect example of this condition exists in the Roll market. This flashback to collecting coins by Rolls is now in full swing, with Kennedy Halves reaping much of the benefit. The Fifty State Commemorative Quarter program is largely responsible for this "retro" Roll activity. Aggressive marketing via mainstream media, including television, radio and catalogues, has been aimed at the retail public, who have responded. Now, it seems everyone wants a Roll of new Quarters. This demand has pushed the Bid for new Fifty State Quarter Rolls to as high as $50 for PA issues!

The Lincoln Cent series is another area of numismatics with selective strength. The plus signs are most prevalent for MS64 and MS65 Red examples. Also, there is interest for 3-Cent Silver Pieces. Increases are scattered throughout the series with a small concentration of plus signs appearing for select MS63 examples. Shield Nickels are up in Good condition with many dates advancing. More activity is taking place in the Liberty Nickel series. Increases are numerous for many MS65 issues.

Some of the strongest demand and most active Bidding is seen in the popular Barber coinage. Among Barber Dimes, there are many plus signs appearing throughout the chart. Dealers are very selective, as they are willing to pay up for some better dates but are discounting the common dates in MS65. The **big three** keys head the demand for Barber Quarters. Bids have increased for the 1896-S, 1901-S and the 1913-S. Other semi-key dates are increasing with the bulk of demand targeting the MS63 and MS64 grades. Barber Halves are enjoying several plus signs. However, we also see a few issues being discounted.

Washington Quarters are still hot, with many Bids increasing. The strongest demand is seeking the key and semi-key dates, like 1932-D and -S; 1934-D; 1935-S; 1936-D and -S; 1937-D and -S; 1938; 1938-S; 1939-S; and 1940-D, which are persistently sought after.

Without a doubt, select strength is the name of the game in the rare coin market today. Having laser beam focus on the areas of hot demand seems to insure success.

This Week's Market

CENTS THRU HALVES: The BU and Proof Roll market is **crazy!** Continuous jumps in Bid have occurred week after week. Fifty State Quarters and Kennedy Halves are especially strong.

MERCURY DIMES: Continued stability characterizes Winged Liberty Dimes. Dynamic, widespread support for current Bids remains firmly intact.

WALKING LIBERTY HALVES: A few more Bid jumps this week. In MS64 the 1941-D, 1942-S, and 1946-S issues have gone up. The remainder of the market is still full of demand at present levels.

DOLLARS: The Morgan market is mixed. On the one hand, a variety of common date issues are up in VG, while on the other hand, a large number of generics in MS60 are down. These adjustments are not huge, and seem to be in line with the characteristic, often slight volatility of this area of numismatics. Weakness continues for Peace Dollars, especially in VG, where prices have been going down for weeks now. Silver Eagle premiums are down slightly.

PROOF SETS AND MINT SETS: Proof and Mint Sets show no signs of letting up. Bid jumps and widespread support continue to blanket this market. Presently, the days of obtaining quantities of sets below Bid are long gone.

COMMEMORATIVES: Silver Commemoratives are *predominantly* stable, though a few increases exist. For example, the 1936 Delaware Tercentenary and the 1936 Elgin, Illinois Centennial have both risen in MS60 and MS63. The Booker T. Washington and the Washington/Carver PDS Sets have maintained very strong support. In fact, the 1954 Washington/Carver Sets have gone up in MS60. Gold Commems have huge support in MS64 thru MS66, with the latter grade category full of increases.

TYPE: Last week's stability has been interrupted by several small, negative adjustments coloring our current Mint State Type report. Proof Type coins have a star this week—the Liberty Seated Half Dime, With Arrows. This specimen is up across the grades of our chart, with increases between 6% and 13%.

GOLD: Some weakness still exists for Gold Type. A number of issues from MS60-MS63 are showing declines.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks encountered, the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes consideration of [illegible] sight-unseen may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding and withdrawal of the high bidder, but will be willing to pay more when offers are higher or sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above and when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise dreary rolls are worth less than typical prices and, past certain dates, may be worthless. In the Jefferson series, some of the rolls in the late '50s and '60s are dark—these bring lower prices. Full steps rolls with a consistent strong luster prior to the Morgan series, gem and handle" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls made up just beginning luster prior, those with obvious cleaning issues, particularly the 3-digit issues are worth more than listed prices. Mixed or unique dates may be found in the MARKET SURVEY section. Mint-set & proof sets are in the COIN

☑ $8.00 PER COIN
☑ 6-DAY SERVICE

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Single copy price $4.00 Vol. XXXVIII No. 16 April 21, 2000 *. . .a Friday morning report on the Coin Market*

HALF CENTS & LARGE CENTS ATTRACTIVE
WESTERN U.S. SHOWS POPULAR

The Market in Depth

Spring is usually a busy time for dealers. The April 14-16 Santa Clara Coin, Stamp & Sportscard Show recently concluded in California. Heritage held a Bullet Auction in conjunction with the show which realized slightly over $310K. Next, dealers will be heading to Phoenix for the 5th Annual Arizona Coin Expo held April 27-29, with dealer setup April 26.

Demand for early Half Cents and Large Cents has pushed prices higher for each series. Plus signs are seen in Copper Type. Otherwise, the Type market is quiet, although there are a number of strong supporting Bids. Among Half Cents, plus signs are appearing for About Good, Good and Very Good Liberty Cap examples. Interest for the key, No Pole 1796 issue has forced plus signs in VG thru AU condition. Buyers are looking for relatively problem-free Half Cents. Examples that appear with porous, heavily scratched or cleaned surfaces, or those with severe rim nicks are seriously discounted. Increases are also taking place for Draped Bust Half Cents in Good thru Fine. Further, the key date 1805 Small 5, with Stems variety is experiencing strong Bids in VF thru AU grades. The Braided Hair Type is higher in Fine thru XF, but weaker in AU and a couple of Mint State grades.

A similar scenario is present for Large Cents. The 1793 Wreath Type is up in VF as are the Liberty Cap dates in Good. Strong activity and action are taking place among Draped Bust, Classic Head and Coronet Head Types. Plus signs are dominating the Circulated grades for Draped Bust and Classic Head Types. Mint State examples are realizing the majority of the plus signs for the Coronet dates from 1816 thru 1839. A few Braided Hair Types are also sporting some plus signs. Most Half Cent and Large Cent collectors are serious students of numismatics and are happy to buy scarce examples as they appear on the market. Dealers are careful to point out the specific variety and information about its rarity.

Gold Commemoratives are shinning brightly this week. Dealers have increased their Bids for quality Gold Commems in MS64 and better condition. These increases come after previous increases which did not thoroughly satisfy the strong demand. Silver Commems are also displaying strength of their own as buyers look to capitalize on what many believe to be attractive levels.

This Week's Market

MERCURY DIMES: This market has been very stable for a few weeks now with no positive or negative movement to speak of. Strong support has remained during this quiet period.

WALKING LIBERTY HALVES: As with last week, we have a few scattered increases on our Walker chart. Demand at current Bid is very healthy and found throughout the market.

DOLLARS: VG, VF and MS60 Morgans show increases for common date specimens. Other than some weakness in XF, the remainder of the market is stable. Peace Dollars are also stable, with no significant activity to report. Proof Susan B. Anthony Dollars have made huge gains since January of this year. In particular, the 1979 Proof Type 2 has gone from $67 to $90. Proof Silver Eagles continue strong with the '94 and '95 issues up over 25% since the last report.

PROOF SETS AND MINT SETS: Proof Sets and Mint Sets remain extremely strong. Increases are everywhere for both markets.

COMMEMORATIVES: Silver Commems have awakened this week, with numerous Bid jumps in MS64 thru MS66. Gold Commems are showing some genuine strength as well in the same grades, virtually every issue has gone up. Modern Silver and Gold Commems are stable, with one important exception: guess who's up again? For months now, the 1997 Jackie Robinson $5 Gold Commem has been rapidly climbing the Bid ladder, and has now gone up yet another step to $700 in BU. Keep in mind that the Bid for this coin was at $230 in September, 1998.

TYPE: Mint State Type has stabilized since last week's volatility. Two Cent Pieces in Red and Brown have continued strong support, which may suggest an increase in Bid in the wings. The Proof Type market has support virtually everywhere. Three Cent Nickels and Liberty Seated Halves/Arrows are especially strong.

GOLD: U.S. Gold Type issues have calmed somewhat. While some lower grade issues still show signs of weakness, the remainder of the market is stable with solid support.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60–Unc.: May not have full mint luster, may be dull, lined or spotted. May be the worst piece; example shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63–Choice BU: [illegible] coin, may have some [illegible] but not many; few [illegible] show weakness or spots. Above [illegible]

MS64–Distinct BU: Far and away [illegible] MS63, yet a near miss MS65. Few [illegible] only minor [illegible] main devices. Full [illegible] eye-appeal. A [illegible]

MS65–Gem BU: Sharp, full strike. Lustrous. No major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67–Superb: [illegible] virtually perfect in [illegible] Proof-like [illegible] mint-state coin. [illegible] marks of each coin. They [illegible] eye-appeal.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Matte Proof. Minimal [illegible] with no [illegible] or [illegible] surface [illegible]

Single copy price $4.00 Vol. XXXVIII No. 17 April 28, 2000 *. . .a Friday morning report on the Coin Market*

TAXES TAKE A BITE OUT OF COINS
LIQUIDITY IS KEY

The Market in Depth

Tax time is here, and dealers are scrambling to maintain current levels. The retail market has softened, as many people have to pay tax on profits made in the stoek market last year. Those payments are hurting the sales of coins to a degree. Further complicating the issue is the fact that the stock market is declining at the same time, especially with technology stocks. Therefore, coin consumer confidence is not as robust as we have seen earlier in the year. It is a period when good bargains are to be found for dealers who are liquid enough to pay expenses. Consequently, several Bids are being hit on the electronie dealer networks even if they are thought to be too low.

Despite tax season, there are areas in the market that are showing strength. Plus signs in the Uncirculated Mint State Type chart are found among Quarters, Half Dollars and Dollars. There is also some interest for 3-Cent Silver and Liberty Seated Dimes. Liberty Seated Dollars and Liberty Seated Half Dollars are experiencing strong demand. Increases are taking plaee in MS63 and better for Half Dollars. The Liberty Seated design is very popular among eollectors. This long-running series offers collectors ehallenge and satisfaction. With Motto and Arrows Halves are grabbing the bulk of the demand. Proof Type is also making waves this week. Again, it is the larger denominations that are increasing. Liberty Seated and Barber Half Dollars are sought-after in PR63 and better condition. With Proof coins, those graded PR60 are usually considered unattractive. Too many scratches and other marks on brilliant Proof surfaces tend to be very distracting to collectors.

Common date MS65 Morgan Dollars got a boost to $80. It appears that at least one dealer believes these Gem Cartwheels to be worthy of the $80 level. Common date Peace Dollars are also advancing a bit to $475 in MS66.

This Week's Market

CENTS THRU HALVES: Rolls remain irresistible Quarters and Halves are particularly dynamic with continued impressive increases, and BU Dollars are also climbing

MERCURY DIMES: The Mercury Dime market is stable, and as usual support is very strong throughout. One date stands out this week — the 1916 D in MS64 — showing a 10% increase in Bid.

WALKING LIBERTY HALVES: These popular Half Dollars are quiet presently with no movement to speak of. Uncirculated issues have very healthy Bid support and short set dates in MS63 remain especially strong.

DOLLARS: Common date Circulated Morgans are hot Increases are all over the place in this area of the market. MS65 generics have taken a turn for the better, with numerous higher Bids. Concerning Peace Dollars, low grade support is in place, and the remainder of the market seems to have stabilized finally. In fact a few Bids have actually risen modestly for common dates throughout the market BU Susan B. Anthony Dollars are still rising, with virtually every date showing an increase.

PROOF SETS AND MINT SETS: More and more increases are found for both Proof and Mint Sets. Apparently, plenty of room for continued growth remains in this area of rare coins.

COMMEMORATIVES: There is action with Silver Commems Increases are plentiful, especially in higher grades. Our star this week is the Oregon Trail Memorial series, where several strong Bid jumps exist in MS66. Gold Commems, which ascended with authority last week, have total support for the new higher levels.

TYPE: Scattered, small increases and strong support mark our chart this week for Uncirculated Type coins. Since the overall health of rare coins often becomes manifest in the Mint State Type market, our current report certainly reflects today's strength in numismatics. Similar to Mint State Type, Proof Type coins have hearty support and several small jumps in Bid. Again, Three Cent Nickels and Liberty Seated Halves, with Arrows are very strong, with the latter actually up slightly in PR63 and PR64

GOLD: Continued slight weakness, though predominantly stable describes the U.S. Gold Type market this week.

The weekly COIN DEALER newsletter (the *Grey Sheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell sight seen certified or "raw" uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bid and lowest legitimate Ask prices nationally. They do not necessarily reflect prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which usually include coins that may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the holding of outstanding bids that are higher or Sells which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect a price spread when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The PCI *Capsule...*

☑ $8.00 PER COIN
☑ 6-DAY SERVICE

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!
